

GL Plus™

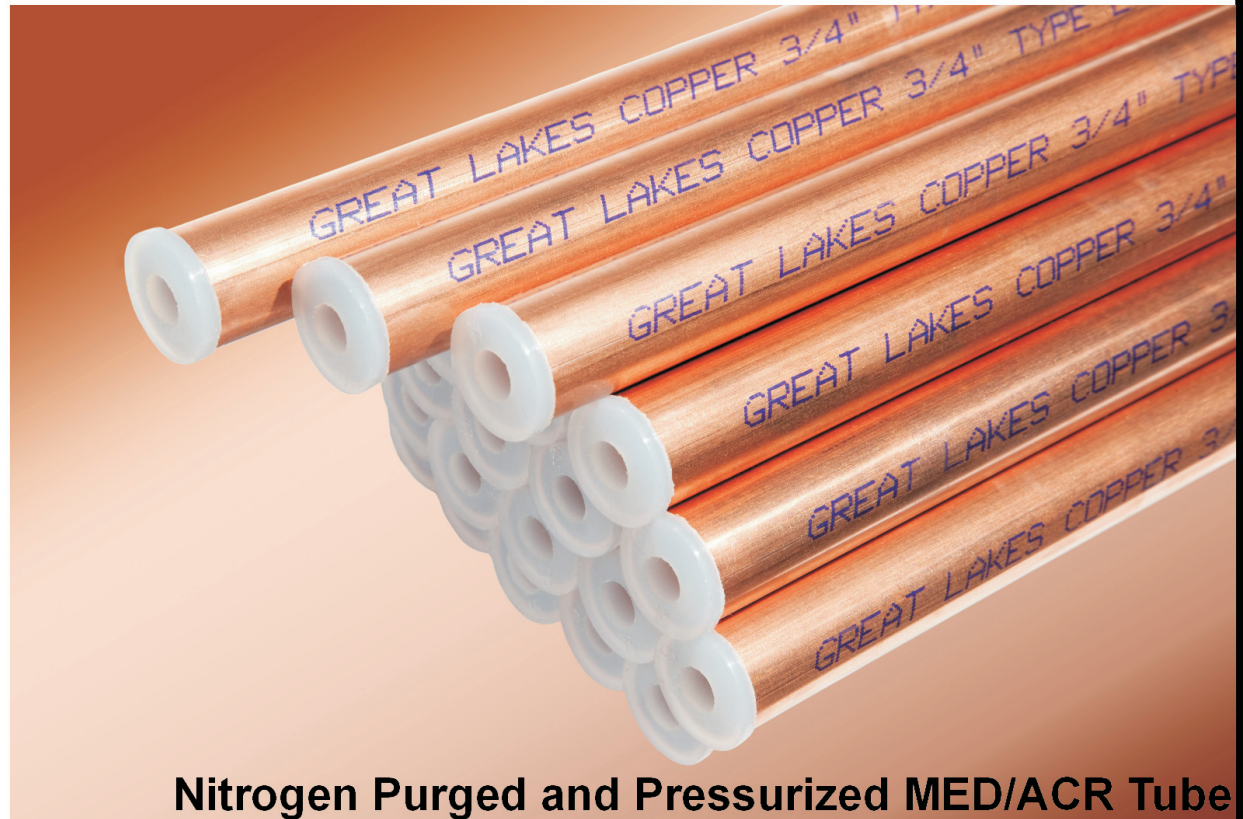

GL Plus™ pressurized ACR/Med copper tubing, from Great Lakes Copper Inc., is available in 10, 12, and 20 ft. lengths, and a variety of sizes, both Type L and Type K. Each product conforms to ASTM B-280/B-819 specifications, is specially cleaned, deburred, purged and pressurized with nitrogen gas, and features easy to remove, installer friendly, silicone plugs.

Visit us in Chicago at the 2012 AHR Expo at booth # 2843 for the official unveiling of **GL Plus™**

GREAT LAKES COPPER INC.

Now Introducing GL Plus™
